Pegasus: The new global weapon for silencing journalists

At least 180 journalists around the world have been selected as targets by clients of the cybersurveillance company NSO Group, according to a new Forbidden Stories investigation, published today.

The Pegasus Project A global investigation

Jamal Khashoggi's wife targeted with spyware before his death

The cellphones of murdered Saudi columnist's fiancée and associate hacked after his murder

The Million Dollar Dissident NSO Group's iPhone Zero-Days used against a UAE Human Rights Defender

< Back Lockdown Mode

Lockdown Mode

Lockdown Mode is an extreme, optional
mode that should only be used if you believe
your phone may be personally targeted by a highly
sophisticated cyberattack. Most people are never
targeted by attacks of this nature.

When an iPhone is in Lockdown Mode, it will not
function as it typically does. Apps, websites and
features will be strictly limited for security, and
some experiences will be completely unavailable.
