Why Schools Choose Verkada

Stop smoking, vaping and bullying in bathrooms and locker rooms. Pair air quality sensors with context cameras in public areas.

Initiate a **custom Lockdown scenario** from a panic button, web browser or mobile app – while **still allowing first responders access**.

Accelerate emergency response with AI-powered analytics and tools, including **Person of Interest alerts**.

Find, save and share footage on-the-go. Plus, **share live camera feeds** with local authorities in seconds and **monitor them from anywhere**.

Conduct **security screens** with cloud-based visitor management that integrates with cameras and access control.

Allow school staff to **take calls from anywhere**. Set **door schedules** around school hours, and provision **role-based access** to privileged areas.

The State of Vaping Today

Five years after the US Surgeon General's formal advisory on youth vaping, more teens than ever are vaping.

- Verkada's Vape Activity Index shows a **20% increase in vaping activity in the last year.**
 - More than 4 in 5 teachers (84%) and students (82%) say **more people are vaping.**
 - **96% of teenagers view** vaping as a problem.
 - Over half of vaping teens **say they are addicted.**
